SEAMARCS
Stakeholders Mapping

Add your subtitle here

Why Do Stakeholder Mapping?

1. **Identify All Relevant Stakeholders**

2. **Understand Stakeholder Influence and Interest**

Mapping shows **who has power**, who is most affected, and who needs to be kept informed or actively engaged.

3. **Prioritize Communication and Engagement**

4. **Manage Expectations and Risks**

Understanding stakeholders' expectations early helps avoid **conflicts and resistance late**r in the project.

5. **Improve Decision-Making**

Knowing **who to consult** for decisions or approvals streamlines governance and accountability.

6. **Build Support and Buy-In.**
